

## General Counsel Services

Do you ever wish you had a trusted partner for all your legal needs? Someone who really understands your business and can help you meet your business goals while minimizing risks, stress, and conflicts?

All businesses need a General Counsel to be their go-to for all legal issues. We know that our clients know “what” they wish to achieve, yet they do not always know how to implement the solution. We know “how to” address the problem with analysis and strategy borne from experience in dealing with these same problems on behalf of others.

### General Counsel Service

During every stage of a business, you need a wide variety of legal advice even if you do not need a full-time in-house attorney. We offer our clients the equivalent of an in-house counsel on an as-needed basis. You can call us anytime.

### Deep Understanding

To be an effective trusted advisor, we ask our clients to give us an in-depth understanding of their business operations, long-term goals, and biggest fears. We encourage you to call us with any questions – we’re here to help!

### Preventive Law Opportunities

Knowing your business and understanding your culture provides us enough insight to suggest approaches that reduce risks and can often avoid potential problems. We encourage our clients to undertake a holistic review of all of their existing contracts, employment manuals, and proposal language to make sure you have the most protection and most up-to-date language. We offer an annual “checkup” to help you get ahead of problems.

### Coverage of Broad Legal Issues

Because we are a full-service firm, our attorneys have abilities to advise on the issues which most businesses face on a routine basis. We help you draft and negotiate contracts, protect your brand and intellectual property; manage labor and employment issues, and address your space needs whether you own or lease your business location. We also help resolve disputes through the courts and administrative agencies. We not only can answer questions but we have pragmatic solutions to the challenges of everyday business owners.
